

Fingerprints

The Bible talks about many insects and animals. Look up the references below and write in the name of the animal talked about in that Bible verse. Then make some fingerprint animals. We've made a few to show you how. First, press your thumb against an ink pad or color the inside tip of your thumb with a felt-tip marker. Then, press your thumb lightly on the paper to make heads and bodies. Use a pencil or crayon to add legs, ears, mouth, eyes, and whatever else is needed to make the picture complete.
