Put the numbers 3 and 9 next to each other and you get?

Right, there are 39 books in the Old Testament.

Well, how many are in the New Testament?

Okay, how many letters in the word, new?

3 — isn't this the same thing all over again?

Just wait. How many letters in the word testament?

9

Now, if you know your multiplication tables, multiply  $3 \times 9$ .  
If you don't, ask someone to help you.

OK, the answer is 27.

That's right, Shep. So there are 27 books in the New Testament.

So, if I want to know how many are in the whole Bible I add 39 and 27 together and get 66 books in the whole Bible.

Right!

Make sure you read something everyday from the Bible.

This is a good time to be reading some of the Psalms of praises.

Read Psalm 100.

Have a Happy Thanksgiving.

And a great Bible week.
